# ORGANIC AREA

While creating Organic we listened to the best architect –nature itself.  
Organic , cubic form filled with organic shapes, takes its design  
straight from nature to provide a bit of relaxation in today's stressful world.

White makes the reception desk look fresh and gives plenty of options to arrange the place allowing individual ideas:

white goes well with every other color.

Soft design attracts attention.

The modular system allows you to create the reception desk corresponding to your own needs.

The stylish design can decorate the whole front of the counter or it can protrude on the left or right side.

The irregular design of the reception desk stimulates the imagination.

The spider web with reflecting sunlight, or perhaps cells of a living organism?

The natural design is emphasised by backlighting system of fluorescent light.

The final impression is completed by the glass top that gives the reception splendor and nobility.

ZEN  
AREA

Three rectangular elements link the straight reception counter ZEN in a particular way.

The modules equipped with LED-lighting add delicacy and improve the working conditions in the darkened rooms. Brushed aluminum used in the kick plate perfectly matches the white colour of the reception counter.

# ARCTIC SUMMER AREA

Designer  
Charles Kalpakian

White & just white. White means purity, perfection and confidence.

The desktop is made from pastel white lacobel glass, so are the front and sides of the reception desk.

The pattern of Arctic Summer emphasises fluorescent white light.

Opposites attract.

Arctic summer - ice flow warmed up with the glow-tube lighting.

The fancy design of this reception desk is intended for people with imagination, who appreciate elegance and dislike monotony.

Charles Kalpakian, designer: - The reception desk drawing's come from the street lines, graffiti, and full and empty.

The light allows to read the object and gives the focus on them in a big space.
